ENERGIZING YOURSELF
ENERGIZING YOUR TEAM
ENERGIZING YOUR COMPANY

&
BE MORE

DESCRIPTION

"IF YOU WANT TO BUILD A SHIP, DON'T GATHER PEOPLE TOGETHER TO GET WOOD, ASSIGN TASKS AND STOP WORK, BUT TEACH PEOPLE TO LONG FOR THE VAST ENDLESS SEA. ANTOINE DE SAINT EXUPERY

Leading people requires more than just professional competence. Qualified employees want to be inspired, developed and challenged. Successful companies invest in the sustainability of the company and thus in their leadership performance.

The ENERGIZING PROGRAM is a leadership training based on three pillars:

MODULE 1: #SELF-LEADERSHIP

MODULE 2: #TEAM-LEADERSHIP

MODULE 3: # LEADERSHIP WITHIN THE ORGANIZATION

Participants receive innovative leadership tools and a new awareness of how to ensure the future viability of the company with their inner attitude, leadership skills and innovative communication methods and how to successfully master daily challenges.

Together, they gain a better understanding and awareness of their own leadership role. The focus is not on classic leadership tools, but on the inner attitude and one's own awareness. The participants identify and eliminate characteristics that reduce their own energy level. They establish characteristics that increase their own energy level, the team energy level and the entrepreneurial energy level, in order to master the complex challenges of the future with more sovereignty, professionalism and efficiency.
